

REALLY EFFECTIVE MEETINGS

PROGRAM DESCRIPTION

VisionQuest and The New Reality™ can make your company's event more focused and productive than ever before. Whether it's a strategic planning session, group retreat, new product kick-off, or a gathering uniquely your own, our energetic consultants facilitate a focused, goal-oriented meeting that keeps ideas flowing and your objectives on target.

This customized solution involves employing our proprietary meeting mechanics along with the basics of The New Reality™ to help you brainstorm, organize, and develop the best ideas in the room. Meeting lengths and formats are completely tailored to your needs.

OBJECTIVES

Participants will:

- Observe the 10 Commandments of Really Effective Meetings, including setting a clear agenda beforehand
- Employ Problem Identification and other effective meeting mechanics
- Focus on developing the best idea in the room with our Brainstorming Guide

THE NEW REALITY™ MAKES ANY MEETING REALLY EFFECTIVE

Change is constant, evolving, unrelenting. Preparing for a single change like a reorganization or technology upgrade is not enough. Unless organizations become flexible, agile and opportunistic—or change-adaptive—for the long-term, investing in any initiative is risky at best.

The New Reality™ teaches your organization and individuals how seize the immense opportunities that your initiative will bring, along with those to come. When VisionQuest facilitates your meeting, you will learn about:

- The three guarantees
- The predictable dynamics of change
- The productivity impact
 - Resistance to change and its phases
 - Change-adaptive cultures and their advantages

DELIVERY FORMATS

All sessions are fully customized, contact us for details.
